

## TO WHOM IT MAY CONCERN

### **The General Court of the European Union Confirms the Validity of the SCIO and EDUCTOR EU Trademarks – Mandelay Kft. is the Sole and Lawful Owner**

In **June 2025**, the European Union Intellectual Property Office (EUIPO) officially maintained the **SCIO and EDUCTOR EU trademark registrations** as **fully valid and owned exclusively by Mandelay Kft.** By means of this decision the EUIPO **finally rejected all invalidity proceedings** initiated against these trademarks by **William C. Nelson (a.k.a. Desirée Dubounet)**, who falsely claimed earlier rights and **assigned those unproven claims to QX World Kft.**

These legal proceedings lasted more than **seven years**, and the **General Court of the European Union** — in full agreement with both the **Cancellation Division** and the **Boards of Appeal of the EUIPO** — ruled conclusively that **no relevant prior rights of Willam C. Nelson existed**, and that the trademarks have **always rightfully belonged to the original applicant, Mandelay Kft.**

As of today, **Mandelay Kft. holds not only the EU-wide exclusive trademark rights** to the SCIO and EDUCTOR marks, but also the **registered EU medical device certification** for the SCIO system. These rights are now **fully enforceable**, and Mandelay Kft. will take **immediate and decisive legal action** against **any unauthorized commercial use** of the SCIO or EDUCTOR names and technologies within the territory of the European Union.

We are aware that **numerous individuals and companies** exploited the previous legal uncertainty, **unlawfully distributing these devices**, misrepresenting their rights, and **deliberately concealing the fact that both the trademarks and the medical device registration for SCIO** are and have always been **owned solely by Mandelay Kft.**

Let this serve as an **official and final public warning**:

**Any and all commercial use of the SCIO and EDUCTOR trademarks or related medical device (SCIO) in the EU without prior written consent from Mandelay Kft. is a clear violation of trademark and medical device laws and will result in legal action.**

Furthermore, in light of the General Court's decision and the restored legal clarity, **Mandelay Kft. is now initiating trademark infringement proceedings against all parties involved in unauthorized use, distribution, or misrepresentation** of SCIO and EDUCTOR systems.

We encourage any business entities or individuals who have been **misled by bad-faith actors** to immediately contact Mandelay Kft. to **clarify their legal position**. Inquiries should be directed to:

 **info@vibeyoup.com**

Mandelay Kft. remains committed to protecting its intellectual property and the safety and integrity of the SCIO and EDUCTOR systems across the European Union.

**Mandelay Kft.**
